PORTFOLIO

PROFESSIONAL SUMMARY

Final-year Informatics Engineering student at Universitas Ma Chung (GPA 3.82/4.00) specializing in Data Science and Artificial Intelligence. Hands-on experience as Database Administrator Intern at a financial technology company and leadership role as Google Student Ambassador. Proficient in Python, SQL, and database management, with a proven track record in developing AI solutions for healthcare (Computer Vision) and database performance optimization. Strong communication skills demonstrated through teaching assistant experience and public speaking.

TECHNICAL SKILLS

HARD SKILLS

Programming Languages:

Python (Adv.), SQL, PL/SQL, Java, Kotlin

Database Systems:

Microsoft SQL Server (SSMS), PostgreSQL

Data & AI:

Machine Learning, Deep Learning, Computer Vision, Generative AI, Data Visualization

Tools & Platforms:

Android Studio, VS Code, Git, n8n

SOFT SKILLS

Public Speaking & Technical Presentation, Leadership & Team Management, Problem Solving & Critical Thinking, Effective Communication, Working Under Pressure

WORK EXPERIENCE

Database Administrator Intern | PT Adicipta Inovasi Teknologi

Feb 2025 – Feb 2026

- Optimized 15+ critical queries on Microsoft SQL Server (CONFINS R2 & R3 Core) using Extended Events and SQL Profiler, reducing average execution time by up to 35%
- Managed PostgreSQL performance through indexing strategies, routine maintenance (Vacuum), and index simulation using HypoPG for risk-free optimization validation
- Ensured High Availability and cross-system connectivity (Linked Server), executing housekeeping, archiving, and backup & restore procedures for 50+ GB of enterprise data
- Implemented database security management through user access control (Grant User Permissions) to ensure data integrity and protection
- Designed AI Automation initiatives using n8n to modernize DBA operational tools, automating monitoring and reducing manual workload by 40%

Freelance Technical Writer / Academic Editor | Freelance

Mar 2024 – Present

- Conducted proofreading and logical structure editing for 50+ technical documents and project proposals to meet academic/business standards
- Assisted in developing problem statements and literature reviews based on current data to support proposal arguments
- Ensured document format compliance with strict writing guidelines (such as PKM guidelines or journal formats)

Google Student Ambassador | Google Indonesia

Nov 2025 – Feb 2026

- Served as the main speaker for 3 campus technology events, successfully educating 200+ students on Generative AI implementations and prompt engineering.
- Created and managed educational tech content across social media platforms, achieving a total engagement of 73,000+ interactions.
- Acted as a strategic liaison between Google and the university, facilitating access to Google Cloud technologies and certifications for the campus community.

PORTFOLIO

WORK EXPERIENCE

Teaching Assistant (Algorithm & Programming - Python) | Universitas Ma Chung **Aug 2024 – Jan 2025**

- Mentored 40+ students in fundamental Algorithm Logic and Data Structures (List, Dictionary, Tuple), conducting Code Reviews to ensure code efficiency and quality
- Facilitated Live Debugging practicum sessions to develop students' problem-solving skills in case studies

Teaching Assistant (Theory & Lab - Java Programming) | Universitas Ma Chung **Mar 2024 – Aug 2024**

- Guided students in understanding fundamental Object-Oriented Programming (OOP) concepts (Inheritance, Polymorphism, Encapsulation) and ensuring modular code structure
- Provided technical assistance with Exception Handling and Debugging, reviewing the application of Clean Code principles in lab assignments

EDUCATION

Universitas Ma Chung
Bachelor of Informatics Engineering
GPA: 3.82 / 4.00

Aug 2022 – Present

SMAK Santa Maria Malang
Science Major (Mathematics & Natural Sciences)

Jul 2019 – Jul 2022

TRAINING & CERTIFICATIONS

Information Technology Specialist in Artificial Intelligence - Jul 17, 2025

Google Arcade Indonesia Bootcamp – May 21, 2024

ASEAN Data Science Explorers 2024 Bootcamp – Jan 5, 2024

Dicoding Data Science & Visualization Bootcamp – Dec 16, 2023

ACHIEVEMENTS

- **Gold Medal** – National Coding Competition by Soft Uni (November 25, 2023)
- **Second place** - International Robotic AI Competition (July 25, 2025)

LANGUAGE PROFICIENCY

Indonesian: Native

English: Professional Working Proficiency

Mandarin: Intermediate

Korean: Basic
